TODAY'S KITCHEN & BATHROOM CONSTRUCTION

a full service construction company

OUR HISTORY

Since 2003, Today`s Kitchen & Bath Construction has been offering Design/Build construction services throughout Bay Area. We specialize in home remodeling including additions, kitchens, and bathrooms. We help clients, like you, take your blue sky concepts and turn them into your dream remodel. As a fully licensed and insured remodeling company, we are reliable, trustworthy and reputable.

WHAT WE DO

From blueprints to final touches, our team of professionals will guide you through the remodeling process to create a beautiful space that meets your individual needs. Using the latest in technology, Today`s kitchen and bath construction is able to show you what your kitchen, bathroom or addition will look like before it`s built, which minimizes changes and keeps your project on schedule and within budget

OUR QUALITY IS RECOGNIZED

It is truly a privilege to work with our clients and we are honored when they share their positive experiences with others. Check out what our amazing clients have said about us online – Yelp!, Houzz and Google all have personal stories you`ll want to read. Today`s Kitchen & bath Construction is always happy to provide references if you are considering working with our team for your remodeling project.

We are also a recognized leader in the residential remodeling industry in bay area. We take great pride in being ranked alongside the greatest remodelers in the bay area

MISSION STATEMENT

TODAY`S KB mission is to provide the very best value in remodeling services through quality work and a commitment to our clients.

With the highest level of integrity, we will operate a profitable company while promoting an environment that is creative, rewarding and enjoyable for our employees and our clients.

FULL HOME REMODELING

01. WE DO IT ALL

Tell us about your vision and we will take care of the rest! We offer an all-in-one remodeling experience, including design, architectural engineering, permits, materials and construction.

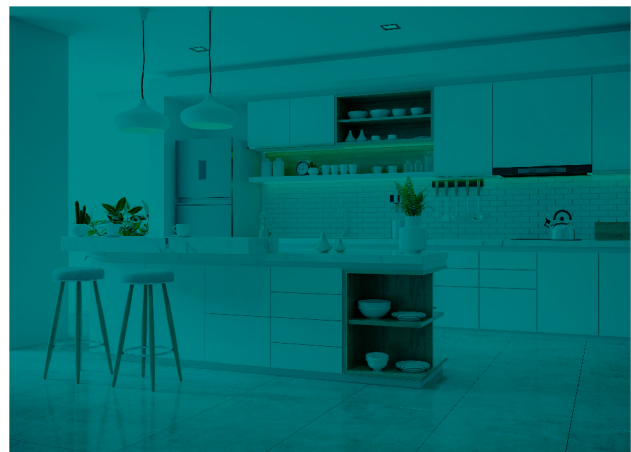

WHY CHOOSE US

02. PERSONALIZED DESIGN

We are ready to help your design and plan your dream space using handpicked, high-quality materials. We partner with select trusted vendors and have secured solid relationships with the best showrooms and manufacturers in the industry.

03. OUR ESTIMATES

We know that budget is one of the most important factors in home remodeling, and that is why our estimates are some of the most detailed you'll find—you'll know exactly what you're getting.

04. FAMILY OWNED & OPERATED

We are a family-operated business with over 20 years of experience in home renovations. Treating our customers with integrity and providing the best customer service is our top priority. We wouldn't be here if it weren't for our satisfied customers and their referrals.

TODAYS KITCHEN & BATH CONSTRUCTION PROCESS

Our remodeling process is simple yet highly efficient. We focus on getting more work done in less time, without compromising on the quality of work.

You would be involved at every stage of the process. The project manager assigned to you would give you regular updates. At the same time, all attempts would be made to implement your ideas and make sure that your project turns out just the way you want.

01

INITIAL CALL

Things start when you give us a call. This would help us understand what your remodeling goals are and also help you discover how our services will help

02

HOME VISIT AND CONSULTATION

Team members visit your home to assess your project, and know about your ideas. Things like the budget will also be discussed.

03

DESIGN & ESTIMATE

Based on your preferences, we will begin the work on the sketch or 3D design. The design would be prepared by conforming to all the local building codes that apply to the city we are working at.

After you finalize the design, a detailed cost estimate would be provided to you. After you agree, the rest of the paperwork would be done and we will order the materials.

04

GETTING THE PERMITS OR NECESSARY PAPERWORK NEEDED

The first thing that needs to be done would be to apply for your remodeling permits at the local city office. The application would be submitted and the inspections would be scheduled.

05

CONSTRUCTION

After getting the initial approval, we will begin the build process. The build process would be further divided into the following stages:

Deconstruction – If there is a need, we would deconstruct your project layout.

Structural Build Out– The carpentry crew will begin the framing work. Depending on the design, major construction work would be done.

Plumbing/ Electrical Wiring and HVAC Rough-in– If the plumbing and the wiring need to be re-routed, then they would be done at this stage. In most cases, the first round of inspections will be scheduled with the city inspectors at this stage.

Finishing Walls and Ceilings – At this stage, your kitchen will start to look like a kitchen. Insulation, installing drywall, and priming and finishing walls and ceilings would be completed.

Installing the Flooring – Based on the material that you choose, installing the flooring will be done at this stage.

Install Cabinets and Countertops – If you are installing a new set of cabinets, then they would be installed at this time, along with the countertops.

Setting up appliances or Fixtures – At the final stages, the appliances would be installed so that they fit seamlessly into your project depending if its kitchen, bathroom or anything else that is involved in your project.

06

COMPLETION AND FINAL INSPECTION

Your project manager will ask for a Punch List from you to see if there is anything else that needs completion or correction before your project is completed. After checking that everything is done right, the final inspection would be scheduled. After getting the approval, your work would be considered to be done.

OUR COMMITMENTS TO YOU

Professional & accurate

We promise to be 100% accurate and professional, and give you the result you hope for.

Meeting Your Deadline

We promise to finish your project on the time frame you've set, meeting your deadline.

Great Communication

We promise to always listen and be sure to understand exactly what you want.

Great Availability

A dedicated project manager will be truly available to help, talk of hear from you at any time.

Clear Pricing

We promise to be clear about the pricing structure of your project, so you know what you're paying for.
